

Kenneth Granados

Senior Full Stack Engineer | React • Node.js • TypeScript • AWS / Azure

Costa Rica • kenneth.granados@gmail.com • linkedin.com/in/kennethmgm • Available for remote roles (US & LATAM time zones)

Full Stack Engineer with over a decade building and shipping production web platforms and APIs for enterprise clients across fintech, healthcare, e-commerce, and analytics. Specialized in React, TypeScript, and Node.js, with hands-on ownership of CI/CD and cloud deployments on AWS and Azure. Has led frontend architecture and mentored teams of 4–5 developers, cut deployment times by ~60%, and delivered large-scale catalog and data migrations in live commerce systems.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML5, CSS3/Sass

Frontend: React, Next.js, Angular, component design systems, Jest

Backend: Node.js, REST API design, third-party & payment integrations

Databases: PostgreSQL, MySQL, MongoDB

Cloud & DevOps: AWS (Lambda, S3, CloudFront, EC2, CloudWatch), Azure, Docker, GitHub Actions, CircleCI

PROFESSIONAL EXPERIENCE

10Pearls (formerly ProximityCR)

Feb 2015 – Present

Enterprise software consultancy. Fintech, healthcare, e-commerce and analytics platforms for US clients.

Senior Software Engineer

2020 – Present

- Led frontend architecture and feature delivery on multiple production platforms built with React, Next.js and TypeScript, guiding teams of 4–5 developers through implementation and code review.
- Rebuilt build and release pipelines with Docker, GitHub Actions and CircleCI, reducing deployment time by approximately 60% and making releases repeatable for the wider team.
- Planned and executed the migration of a 6,000+ product catalog with associated media and structured data into a headless commerce stack, with no loss of live sales availability.
- Designed and maintained Node.js REST APIs, integrating payments (Stripe), headless commerce (commercetools) and PIM services into customer-facing applications.
- Ran deployments and monitoring across AWS (Lambda, S3, CloudFront, EC2, CloudWatch) and Azure, and acted as the day-to-day technical point of contact for QA, DevOps and product stakeholders.

Full Stack Developer

2017 – 2020

- Built full-stack web applications and internal business tools, including a project and task tracking system with full CRUD, reporting and role-based access.
- Developed and customized e-commerce storefronts and delivered reusable, modular UI component libraries adopted across multiple client projects.
- Contributed backend services and database schema improvements, and advised on data modelling for new features.

Web Developer (ProximityCR, prior to rebrand)

2015 – 2017

- Delivered e-commerce, marketing and customer-service web projects using AngularJS, Vue.js, Magento, PHP and jQuery, covering both implementation and post-launch support.

EDUCATION

B.Sc. in Information Systems Engineering • Universidad Nacional de Costa Rica

2010 – 2014

Fluent in Spanish and English (professional working proficiency).
